Producer and Doctor Leonard G. Horowitz with Investigative Journalist Sherri Kane--“The HOROKANE.”

Filmmaker, Doctor and Public Health Activist Leonard G. Horowitz, D.M.D., M.A., M.P.H., D.N.M. (hon.) D.M.M. (hon.)

Award Winning Author, Filmmaker, and Activist  
Dr. Leonard G. Horowitz

Dr. Leonard G. Horowitz is the world's most prolific, best credential, and most controversial drug industry whistleblower. This award-winning author, film-maker, pharmaceutical industry critic, and intelligence industry analyst has published nineteen books and dozens of peer reviewed scientific articles. Dr. Horowitz's first of three American bestsellers, *Emerging Viruses: AIDS & Ebola—Nature, Accident or Intentional?*, is largely credited for prompting the global vaccination risk awareness movement. The book caused several governments to reconsider their "immunization" policies, and became the center of political debate in 2008 when Barack Obama's minister, Rev. Jeremiah Wright, credited Horowitz and this book for evidencing HIV/AIDS as a genocidal weapon of mass depopulation targeting Africans and African Americans, courtesy of covert U.S. military contractors named in the publication. Dr. Horowitz's second bestseller, *Healing Codes for the Biological Apocalypse*, prompted a revolution in the music and natural healing industries, advancing the production of "medicial music" made in the central frequency used by chlorophyll to produce oxygen--528nm/Hz. The retired dentist, researcher, health products pioneer, and naturopathic physician's consumer health guidebook, *Healing Celebrations: Miraculous Recoveries Through Ancient Scripture, Natural Medicine and Modern Science*, pioneered the protocol adopted by thousands of natural healers and medical doctors worldwide. Most extraordinary, Dr. Horowitz's 2007 decryption of Leonardo da Vinci's most famous drawing revealed the mathematics of *LOVE: The Real da Vinci CODE*; and his follow-up text, the most monumental of his 30-year career, *The Book of 528: Prosperity Key of LOVE*, reveals the "creative technology" fundamental to "intelligent design." In 2008, Horowitz was voted by his peers in natural medicine as a "World Leading Intellectual." "So far a Nobel Prize hasn't been awarded to Dr. Len Horowitz, but it should have been," wrote Col. Gritz, the U.S. military's real Rambo--the most decorated officer in history. Alternatively, Col. Jack Kingston, past Chairman of the National Security Advisory Board in Washington, D.C., wrote, "In my estimation [Horowitz] has unearthed a covert operation run amok, that is bigger than any secret operation in U.S. history, and more momentous in it's implications to humanity than the atomic weapons 'Manhattan Project' of World War II."

## STATEMENT BY THE PRODUCER/DIRECTOR

Dr. Leonard G. Horowitz

“People who lack the eyes to see the documentation *UN-VAXXED* presents, or the ears for truth that I relay in this contribution; or people who cannot easily grasp the facts supporting the likelihood that vaccines are being used as ‘genocidal weapons for mass depopulation,’ may not choose to see what is happening right in front of their eyes,” Dr. Horowitz cautioned.

Horowitz disagrees with both camps--pro-vaccination and anti-vaccination--and for good cause. “Most vaccine experts on both sides of the debate,” the Harvard-trained doctor explains, “suffer from what I call ‘PSYCHO-SCOTOMAS.’ The word ‘psycho-scotoma’ accurately and concisely diagnoses the main (mass mediated) problem. In medicine, we learn to diagnose problems before we treat them. ‘Diagnosis’ means to “*see through to the root of the disorder.*” A ‘scotoma’ in medicine is a ‘blind spot’ in vision. People can’t *see* what is right in front of them because of nerve disease affecting vision. Similarly, a “psycho-scotoma” is a blind spot in viewing reality caused mainly by the media, advertising, otherwise called ‘behavioral conditioning,’ or ‘social engineering,’ also called ‘programming.’ The great battle between fear versus faith is central to the diagnosis of this global problem that requires effective treatment. In their quest for money, power, or social/political control, people deny reality, con themselves, and each other, to rationalize nearly everything, including mass extermination of people, much like Bill Gates explains in this film, rationalizing terminating nearly a billion people for ‘National Security.’ Generally speaking, this ‘reality’ is too frightening for most people to grasp, so they don’t generally view a film like this that provides the intelligence necessary to *see* the ‘Big Picture.’ Unfortunately, what you don’t want to see, or don’t care to know, can kill you in this instance. Thankfully, there are still heroes like many of my friends, people like my co-host, Sherri Kane, who don’t operate under those constraints. They are still committed to saving as many children, and adults, as possible by defending *freedom of choice*. Informed consent is crucial to civilization. People need information to make good decisions. They need the truth, the facts, no misrepresentations, no omissions, no consumer fraud, in order to make wise choices that can affect their families, especially in this controversial field of vaccinology. This is the mission of *UN-VAXXED: A Docu-commentary for Robert De Niro*--to advance the life-saving ‘discussion’ that Robert De Niro sought to start.

## FIRST REVIEWS BY PRIVATE SCREENERERS

While others are focused on how vaccines can be made safe and effective, Horowitz and Kane make a compelling argument why that is the wrong question. Un-Vaxxed provides the who, where and why we now face the biggest medical crisis of our times. This film is a tour de force. 5 stars!!!!

A most excellent expose' that delves deep into the rabbit hole of vaccine practice, history, and current controversies around the CDC Whistleblower.

All of the important dots are connected.

It remains to be seen if President Trump will have the gumption to take them all on.

I believe he will.

Hang in there humanity!

Justice and truth are just around the corner...

I'm surprised and greatly disappointed that Robert DeNiro didn't screen the film in the first place, and let the audiences decide it's merits, especially since his child is a victim of the medical whores and the pharmaceutical pimps who are destroying the world's health, for profit. Was Mr. DeNiro threatened? I personally know Leonard and Sherri to be totally dedicated to exposing this giant crime against humanity. They are sacrificing a lot of their personal lives and privacy to be champions for common sense, natural healing, Holistic medicine, and THE TRUTH! Their film deserves to be seen by large audiences and to be discussed, critiqued and put on the table of the common good versus the corporate doctors and medical criminals and disaster capitalists who would sacrifice the health of our children and all the rest of us for their stock portfolios and bonuses. In the case of Bill and Melinda Gates, there is no accounting for their ignorance. Maybe, they are willing to buy a legacy at any cost?
