Josh,

Congratulations. Even though we don't see eye to eye on the vaccine issue, I'm thankful Mr. Chin is out and you are in.

As a medical doctor, and now Lt. Gov. elect, you are especially advised to read and please make your official statement, or alternatively a "peer review" summary, of the attached important new article I compiled as a service to the citizens of Hawaii in opposition to the Hawaii health department's proposed Title 11 changes. I will make sure your statement, or review is published in [Medical Veritas](#) online journal. You really need to know about these issues. They are CRUCIAL to the health and safety of the children.

Also, I know you have a good relationship with our attorney, Margaret Wille. Margaret really deserves to be Mayor in Hilo. She has a great heart, works very hard for the people of Hawaii, as you know drafts excellent legislation, and opposes corruption in government. Please see what you can do to make Margaret Mayor.

Also, please put a call into Mitch Roth regarding the ayahuasca (class 1 narcotic dimethyltryptamine "DMT") king-pin and white collar criminal lawyer, Paul J. Sulla, Jr. suspect in new criminal case C18009739 for "Forgery in the Second Degree." Two HPD investigators confirmed this forgery after the County discovered one of the many Sulla forgeries he used to steal our property in Pahoehoe by exercising his "judicial influence." You may be asked to comment on this case for two reasons: (1) it involves an illegal DMT manufacturing and trafficking operation on the Big Island involving money laundering through illegal real estate deals (including my property defended by Margaret) that will be increasingly making news. The abuse of DMT is exploding across the US, supplied mainly by Sulla's operations; and (2) there is serious evidence for the feds to bring public corruption charges in our case, as well as many others in which we are witnesses.

Best wishes and good luck dealing with the pressures.
