

February 10, 2020

Honorable Kelvin K. Droegemeier
Director,
Executive Office of the President
Office of Science and Technology Policy
Washington, DC 20502

and

Honorable Chad Wolf
Acting Secretary
U.S. Department of Homeland Security
Washington, D.C. 20528

RE: Coronavirus Bioweapon, Media Bioterrorism, and Recommendations to Reduce Risks to Public Health and Safety

Dear Director Droegemeier and Acting Secretary Wolf:

I am responding to Director Droegemeier's [letter of February 3, 2020](#), requesting the National Academy of Science to provide a "Rapid Response Assessment . . . that would [help determine the origins of 2019 2019-nCoV](#), specifically from an evolutionary/structural biology standpoint;" as well as to Secretary Wolf's interview on FOX News regarding your administration's coronavirus defense plans.

Unfortunately, without addressing the liabilities detailed below, your administration may be hoodwinked, undermined, and diverted from the true origin of this lab virus and appropriate preventative actions, unnecessarily increasing morbidity, mortality, and public anxiety.

These liabilities include: (1) the *laboratory creation* of this "novel" 2019 coronavirus (2019 nCoV) to which the AIDS-virus (HIV) envelope gene is attached, as well as the "middle fragment" encoding a SARS (severe acute respiratory syndrome) spike protein, both appearing to have been inserted into the 2019-nCoV virus bioweapon; (2) media censorship of accurate intelligence addressing the public's reasonable concerns; (3) erroneous and terrorizing information being broadcast instead of helpful preventative strategies beyond handwashing and the use of face masks; (4) the geopolitical and economic correlates and antecedents of the Wuhan outbreak; and (5) Hawaii's immigration policies risking mainland transmission.

I advise you here as a [Harvard-trained expert in emerging diseases and media communications](#) who has been heavily persecuted, defamed, and censored for my efforts in advancing origin of AIDS science, inter alia. I am registered with the U.S. District Court of Hawaii, under Criminal Justice Act (CJA) provisions, as an expert witness paid to testify on matters of medical research, biological weaponry and bioterrorism, vaccinology, and public corruption. In addition to my post-doctoral degree in public health, I am the Editor-in-Chief of [Medical Veritas International, Inc.](#) a 501(c) non-profit; the author of the top-selling book in the field of [Emerging Viruses: AIDS & Ebola](#); and the [recipient of multiple awards](#) for my books and films in these fields. I have also testified before legislative bodies on the politically-incorrect matter of vaccination risks, viral recombinants risking genetic damage, pandemics, and cancers, including the HIV/AIDS cancer complex, HPV/cervical cancers, ZIKA-induced microcephaly, Ebola's origin and immune suppression, SARS, H1N1 Swine Flu, and more.

Under the circumstances, and public duty doctrine, I offer you this advice.

1. The 2019 nCoV/HIV/SARS recombinant is a lab-created bioweapon

The subject Coronavirus is undoubtedly a lab-engineered bioweapon.

Clear-and-convincing proof of this includes published science issued by nine honorable experts led by [Prashant Pradham, the Chief Technical Officer for IBM in Asia](#). Pradham's team used the WATSON computer to analyze genetic similarities in the coronavirus and other pathogens. Unmistakably, 2019 nCoV contains a 'smoking gun'--the AIDS virus envelop gene—prima facie evidence of a lab virus 'recombinant'.

This discovery of weaponizing 2019 nCoV with HIV's attachment mechanism is compounded by the finding of [evolutionary biologist Dr. James Lyons-Weiler of the Institute for Pure and Applied Knowledge](#). Dr. Lyons showed the coronavirus' genetic sequence contains a unique "middle fragment" encoding for a SARS protein inserted to presumably increase respiratory distress using "pShuttle" technology used exclusively in labs, not nature.

Accordingly, it is unreasonable to presume 2019 nCoV came from bats, snakes, or nature. Alternatively, we must presumed this germ was manufactured as a bioweapon, and released for political and commercial gain (i.e., bioterrorism).

It is unknown at present, however, which lab sourced this 2019 nCoV/HIV/SARS recombinant.

Given probable cause to presume criminal activity, the Justice Department should begin to investigate the short list of suspected BSL 3/4 labs, in addition to your having directed the National Academy of Sciences to look into these matters.

Questions must be raised concerning the 20-mile proximity of the Wuhan "seafood market" with China's BSL 4 bioweapons lab. The evidence in hand confirms this 2019 nCoV/HIV/SARS recombinant may not have been produced in Wuhan's BSL 4 lab, but alternatively at one of several 'Deep State' suspect labs, such as at Johns Hopkins, Harvard, NYU, the CDC, the Pasteur Institute, or by coronavirus vaccine makers.

Our public duties require us to urgently advance these investigations to make these determinations, because neglecting these matters invites additional releases; may hamper efforts to develop cures; and cause more diseases and deaths.

In medicine, accurate diagnosis is required for effective treatment. Diagnosis means “to see through” to the root of the disorder. The facts in hand compel our presumption that the bioweapon was loosed to effect political and financial objectives. Therefore, we are urgently required to investigate the root(s) of this ‘disorder’ in the public and private sectors.

2. Media Censorship of Accurate Intelligence: Failure to Address Reasonable Concerns

A. Media Censorship Conceals Accurate Intelligence and is a Material Fact in Required Criminal Investigations

Substantial discovery and diagnosis can be made by evaluating media coverage, diversions, fraudulent concealments, or censorship favoring special interests.

It must be presumed, given the aforementioned facts, and neglect of them by the corporate controlled media, that widespread censorship and diversionary misinformation surrounding the coronavirus pandemic provides ‘cover’ for criminal operations.

The media’s and health officials’ political and economic motives for censoring accurate intelligence is addressed below.

There is precedent for media-wide censorship. The pattern and practice of censoring politically-incorrect information has been well established, for instance, with publications critical of vaccinations. Like coronavirus ties to bioweapons labs, this intelligence has been recklessly dismissed, disparaged, or censored. This censorship is administered by special interests through public corruption or financial influence, as seen with Rep. Adam Schiff’s written notices to social media companies Facebook and Google/YouTube to block consumers’ comments opposing vaccination injuries. Likewise, these companies have consistently [censored my publications](#) in this field. This discriminatory animus favors special interests (e.g., Big Pharma).

The corporate-controlled media has similarly censored the [Pradham group’s important determinations](#).

All news sources have similarly neglected or concealed the [coronavirus preparedness conference](#) held in October, 2019, titled “[Event 201](#)” suspiciously predicting virtually all of the events occurring two months later following the actual release of the bioweapon.

These important facts have also been irresponsibly dismissed or misrepresented by Chinese officials. According to [ZeroHedge.com](#), for example, the director at the Wuhan Institute of Virology, Shi Zhengli, claimed that Pradham’s group dismissed its own genetic analysis. This is unreasonable, given the extensive research conducted to find “4 unique inserts in the 2019-nCoV, all of which have identity/similarity to amino acid residues in key structural proteins of HIV-1 [each of which are] unlikely to be fortuitous in nature.”

Further evidencing fraudulent concealments and bioterrorism by the complicit media, to date, all Western media appear to be prejudicially indicting Chinese governors, whereas both Eastern and Western officials are equally implicated or disadvantaged.

For example, the reported arrest of Chinese doctor, Li Wenliang, is instructive. It evidences censorship and foul play.

B. Media Censorship Compounds Foul Play (i.e., Bioterrorism)

According to Li Wenliang's [wrongful criminal arrest record](#), this doctor first identified "7 SARS cases at the Huanan fruits and seafood market in the WeChat group 'Wuhan University clinical '04' on December 30, 2019."

In a city of 11 million people, with the seafood market 20 miles away from the BSL 4 lab, it is unreasonable to presume: a) other doctors closer to the lab were not seeing similar cases if the outbreak occurred from the Wuhan lab; and b) even if other doctors closer to the lab were censored, or feared reporting the novel respiratory illness, this would not account for the cluster of 7 cases reported in or around the market, especially given the 2 week incubation period of the infection spreading from one person to another (had the virus emerged from the Wuhan lab as suspected at the beginning of December 2019).

In other words, the reported facts and media censorship conceal(s) a most likely release of the bioweapon at the market, with the Western media correctly blaming Chinese officials for wrongdoing, while neglecting the common sense conclusion that the bioweapon was loosed at the market, but not by the Chinese government to its own disadvantage.

The common international media censorship implicates what President Trump refers to as the "fake news" providers representing the "Deep State" multi-national corporate interests at war with the President and all sovereign nations.

That is, the suppression of coronavirus science, as with vaccination risks, is part of the pattern and practice of similarly disregarding the public's health and safety for commercial and political gains; and this motive and means to commit bioterrorism is clearly apparent in those who have been undermining your administration's interests.

C. Censorship Yields Misplaced Reliance on Corrupted Informants

The public is now aware of the divisions and conflicting interests in the branches of government hampering your administration's progress and bipartisan acceptance.

This dissonance raises [reasonable concerns](#) whether or not your reliance on a single government agency, in this case the National Academy of Sciences, is misplaced.

This concern arises from my 1996 publication of the top-seller in the field of HIV/AIDS titled [Emerging Viruses: AIDS & Ebola—Nature, Accident or Intentional?](#) That book and related published science paper was heavily censored along with the discovery that the National Academy of Sciences, National Research Council, in 1969, responded to the task of developing AIDS-like and Ebola-like immune-suppressive viruses for germ warfare.

This revelation directly impacts the recognition of the coronavirus being a biological weapon and lab creation bearing the HIV-1 env gene. According to the Congressional Record, Tuesday, July 1, 1969, Department of Defense Appropriations for 1970, Ninety-First Congress, First Session, Subcommittee on Department of Defense Appropriations, Part 5, Research, Development, and Evaluation, "[Synthetic Biological Agents](#)" (p. 129), the AIDS-virus envelop gene now attached to the 2019 nCoV was part of the construction of the "synthetic" germ we now call HIV.

That military appropriations request and subsequent contract to develop the AIDS cancer trigger precisely described the functional equivalent to HIV as well as the Ebola virus. I subsequently tracked the origin of AIDS and Ebola to the DoD biological weapons contractors that received that financing. Then I tracked the science to subsequent viral contaminations of the Merck Drug Co.'s hepatitis B vaccine 'tested' in NYC and Central Africa.

These facts—concealed scientific determinations—were completely censored by Deep State interests, and I was personally and professionally disparaged for outputting this intelligence by the same intelligence agencies undermining the President's good intentions—the CIA and FBI under Robert Mueller.

D. The U.S. Law Library of Congress Temporarily Tampered with Material Evidence

Further evidencing this internal conflict in governmental affairs, the following two pages are noteworthy. These pages show the U.S. Law Library of Congress's temporarily censored (tampered with) the most important (material) evidence providing *the motive behind the coronavirus pandemic and bioterror campaign*.

The "Global Legal Monitor" published news of the "China: Vaccine Law Passed" on August 27, 2019, that took effect on December 1, 2019. That is the approximate date of the 2019 nCoV/HIV bioweapon's first appearance (resulting in the 7-person cluster of cases four weeks later at the Wuhan market). It appears that someone in the government tampered with this public record on February 8, 2020 as evidenced by the censored page disappeared by officials, but [recovered from Wayback.org](#) as shown on page 6. The censored record, however, was re-published on-or-about February 9, 2020. This record too appears as follows.

That temporarily tampered legal record makes known that the Chinese government opposed *the commercial interests of Big Pharma*. China's new law: (1) criminalized vaccine manufacturing and distribution misbehaviors; (2) monopolized the manufacture and distribution of vaccines in China in favor of the government; (3) pledged free vaccines were to be exclusively administered to citizens; (4) mandated vaccinations for all Chinese citizens; and (5) created a compensation program for vaccine injuries. (Compensation, presumably, would be minimized by the government taking over vaccine manufacturing, distribution, testing and certification processes, thereby assuring quality, efficacy and safety of vaccines—actions Big Pharma opposes, albeit allegedly neglects.)

Accordingly, much like the opposition President Trump is experiencing from Democratic Party leaders financed by Big Pharma/Big Biotech (Deep State) special interests, the Chinese outbreak of the 2019 nCoV/HIV/SARS bioweapon is best viewed as industrial sabotage in retaliation against the anti-Big Pharma policies of Presidents Trump and Jinping.

These facts give probable cause to consider the Wuhan outbreak as a treasonous threat to U.S. National Security, international relations with China, industrial espionage, sabotage, and bioterrorism committed for political and commercial gain.

3. Erroneous and Terrorizing Information Being Broadcast Instead of Helpful Preventative Strategies Beyond Handwashing and the Use of Face Masks.

It is apparent that prudent health education and self-care motivation through the media to help families and schools has been recklessly neglected. Such education should begin in kindergarten, teaching simple self-care practices, and the use of natural remedies such as good hydration. These preventative practices have even been suppressed and neglected by the media in favor of the 'ruling elite's' profits.

In addition, alternative healthcare products and services have been disparaged in favor of Big Pharma. This industry-wide restraint of trade affects the NASA science-developed silver hydrosols that have proven safe, effective, and economical for augmenting human immunity against a broad spectrum of infectious diseases. Instead of suppressing these helpful products, they should be mass produced and distributed by the governments, especially at this time of urgency where no drugs or vaccines are available to fight the 2019 nCoV/HIV/SARS bioweapon.

Furthermore, 'fast tracking' costly and risky coronavirus vaccines is imprudent given the fact the 2019 nCoV/HIV/SARS bioweapon is highly unstable, because it is 'novel,' new, a mutagen, likely to recombine readily and often with other viruses, making vaccines untrustworthy. This is largely why AIDS vaccines have failed.

Similarly, 'fast tracking' anti-viral drugs to combat this bioweapon is unlikely to produce a risk/benefit ratio favorable to public health and safety.

Consequently, I would highly encourage you to research my work advancing the brand called [OxySilver™](#) that uniquely incorporates structured water that enables the beneficial resonance energy of 528Hz/nm frequency to be memorized within covalently-bonded silver-oxygen molecular clusters. This technology, initially advanced by NASA science to keep astronauts healthy, deserves widespread reliance. Unfortunately, this technology has been wrongly suppressed and dismissed as "quackery," "risky," and "pseudoscience." This industrial disparagement and restraint of trade damages public health and disease prevention efforts.

In addition, improvements in nutrition (including Vitamin C that provides anti-viral potency in mega-doses), aerobic exercising, and bio-energetic technologies, can and should be recommended to help reduce morbidity, mortality, and the menacing fear the media is spreading that disables people from exercising their own defenses and 'self-efficacy' in resisting colds, flus and the coronavirus disease.

4. Geopolitical and Economic Correlates and Antecedents of the Wuhan Outbreak

No pandemic in earth's history has evolved divorced from major socio-political and economic upheaval.

As inferred above, coronavirus morbidity, mortality, and terroristic threatening serves political and economic motives favoring special 'Deep State' interests. For instance, [contemporaneous with the Wuhan outbreak](#):

(a) On October 18, 2019, approximately two months *before* 2019 nCoV appeared clinically in Wuhan, the Bill & Melinda Gates Foundation, World Economic Forum, and Johns Hopkins University, sponsored the "[Event 201](#)" exercise predicting nearly precisely the current coronavirus pandemic and its social, military, political and economic consequences. My [critical review](#) of this "exercise" can be viewed online.

(b) President Trump, who has declared "war" against the Deep State for good cause, encouraged political and economic policies with China aversive to Bill Gates and other Deep State/Big Pharma investors. The President secured commercial contracts with China prior to the coronavirus outbreak in Wuhan. The President also campaigned heavily against drug and vaccine industrialists' price-gouging.

A 'pattern-and-practice' of bioterrorism appears under these circumstances, reflecting on the [2001 anthrax mailings](#) sent to House Majority Leader Tom Daschle and Chairman of the Senate Judiciary Committee, Patrick Leahy, both of whom sponsored legislation opposing Big Pharma's expanding monopoly and price gouging.

In addition, the recent [arrest of Harvard Professor Charles Lieber](#) and student Zaosong Zheng for smuggling viruses to China, according to news reports, omits and neglects the television networks' ties to the aforementioned Deep State suspects, operatives, and operations.

For instance, it is public knowledge that President Trump's opposition in intelligence is personified by Bill Gates who: (a) disparaged Donald Trump publicly for seeking vaccine safety science that Gates declared was a "dead end;" (b) lectures on loosing genetically-engineered mosquitoes to vector GMO-laced vaccines; (c) allied with Jeffrey Epstein in financing MIT and Harvard studies in genetics, neuroscience, and evolutionary biology; (d) promotes (like his father did) eugenics-like depopulation to secure the global elite's interests and investments in IBM, IT, AI, 5G, the Cloud, neuroscience, data-mining, and transhumanism; (e) secured with Microsoft governmental partnerships advancing black ops leveraging IT technologies central to Silicon Valley, DARPA, the CIA et. al., including actors at Harvard, Johns Hopkins, NYU, and MIT's Media Labs; and most obviously, (f) financed (through Microsoft) Rep. Adam Schiff's election and attacks against the President—Microsoft being among Schiff's leading campaign financiers in 2015-16, along with Facebook and Google. These suspects have demonstrated extreme un-American and un-Constitutional censorship and discriminatory animus against citizens seeking vaccine-safety assurances online, through science, in the courts, and by freedom of the press, especially those criticizing this corrupted industry.

These parties had the financial and political wherewithal, 'motive and means,' to spread the terrorizing coronavirus and media influence. As published by [TIME magazine](#) (Oct. 5, 2018), promoting NYU Shanghai:

How can the Chinese government hope to foster a generation of disruptors in science and business but not expect them to critically appraise the society around them? What use is fostering critical thinking in a society that demands blind obedience?

In other words, the coronavirus loosed in China is a means to impose “blind obedience” by the Chinese government and Trump Administration. For what purpose? “[T]o foster a generation of disruptors in science and business” that the President accurately describes as the Deep State Swamp.

5. Hawaii’s Immigration Policies Risking Mainland Transmissions.

In recent days, Honolulu, Hawaii has been publicized as [one of 11 airports](#) where all flights to the U.S. from China will be funneled. This policy is especially justified given substantial influx of Chinese investment in Hawaii real estate, tourism, and immigration.

Acting Secretary Wolf, the President, and I share common Hawaii experiences pursuant to partisan politics, prejudice, deprivation of rights, and corrupted law enforcement jeopardizing U.S. National Security. Honolulu and Hilo, where I have resided periodically during the past fifteen years, are key entry points for drug trafficking from China. This criminal activity is enabled or administered by enemies of the President that control Hawaii’s Democratic Party-led government.

In Honolulu, for instance, Judge Derrick Watson deprived your administration’s border security policy, despite Hilo and Honolulu harbors being main gateways for drug, human, and sex trafficking to the mainland U.S. from the Pacific rim.

Trump opponents in the Hawaii Swamp are heavily invested in the opium trade and vaccine industry. This fact is best confirmed by reviewing the FBI’s increasing public corruption records, convictions, and pending criminal cases in Hawaii. Myriad crimes are being committed by controlling Democratic Party officials, judges, or their appointees.

U.S. Senator Mazie Hirono of Hawaii, for instance, much like [Rep. Adam Schiff](#), received substantial campaign financing from Deep State drug companies, Pfizer, Merck, Novartis, Eli Lilly, and Bill Gates’s Microsoft. Each legislator conceals vaccine manufacturing risks and damages opposed by China’s President Jinping and President Trump. Meanwhile, Hawaii State Senator Roz Baker, chairing the Health Committee, continues to push “mandatory vaccinations” after being caught in a [bribery scandal](#) with Pfizer/Monsanto Lobbyists.

In one case, said to be under FBI investigation, Democratic Party officials on the Big Island of Hawaii and in Honolulu have been aiding-and-abetting an illegal land theft scheme damaging, defrauding, and depriving Burisma’s chief competitor in the Ukraine (and Armenia)—the Vitoil Corporation (controlled by Vitaly and Valery Grigoryants). The criminal operation has been administered by drug dealers with complicit County of Hawaii officials. The theft scheme has sabotaged a \$500M “Waikoloa Highlands Project” to unjustly enrich the perpetrators. The enterprise terminated an affordable housing contract damaging at least 80 needy families. Hawaii Democratic Party officials and law enforcers have aided-and-abetted by willful blindness or direct complicity these activities, and substantial drug trafficking and money laundering remains ongoing. Their agents

have committed forgeries, securities fraud, real estate thievery and money laundering, (To read an “Executive Summary” of the facts in evidence, [CLICK HERE.](#))

This criminal activity characterizes the Deep State Swamp controlling the Hawaiian Islands. This racketeering enterprise and public corruption seriously undermines U.S. National Security in this strategic military outpost juxtaposed to China.

State coronavirus advisor, Hawaii’s Lieutenant Governor, Josh Green, is a medical doctor. He currently provides public information to citizens regarding coronavirus preparedness. Currently, Dr. Green, and his counterpart in the Department of Health, Hawaii’s chief epidemiologist, Dr. Sara Park, has been leveraging the coronavirus emergency to recommend influenza vaccines that, according to package inserts and public knowledge, burden citizens’ immune systems. Green’s deceptive trade misrepresents influenza vaccines as a preventative against the coronavirus. Such malpractice is reasonably expected to *increase*, not reduce, morbidity and mortality from the 2019 nCoV/HIV/SARS bioweapon.

Television commercials nightly herald side effects of drugs and vaccines worsened by immunizations. Yet, Green and Park provide media interviews urging people to get flu vaccines that are known to compromise, not increase, immune defenses needed against the coronavirus.

I personally know Dr. Green to be a liar, having lied to me about his [campaign financing](#) by pharmaceutical companies. I [debated Dr. Green on PBS in 2015](#), and was appalled by his ignorance. Since that time, he was elected Lt. Gov. and is currently in charge of coronavirus preparedness and emergency response along with Dr. Park.

Conclusion

The aforementioned facts evidence criminal activities that challenge U.S. National Security and the health and safety of the American people. Consequently, I applaud your Administration’s efforts to bring truth to light concerning the origin of the coronavirus bioweapon.

Under the circumstances, traditionally-trusted academic and scientific bodies can no longer be trusted without independent review. Those providing scientific advisements to your administration should be carefully vetted to minimize corrupt influence and special interest bias.

Justice Department officials should, likewise, be directed to urgently investigate the public corruption and special interests influencing and tainting the legislative and judicial branches of government and law enforcement, jeopardizing border security and the public’s health and safety, pursuant to coronavirus preparedness and more. Such efforts are especially necessary in Hawaii.

Finally, please thank the President for me, on behalf of the millions of people internationally who have relied on my quarter century of advisements concerning the origin of emerging diseases and their political and medical remedies.

Please tell the President that I honor his heroism in opposition to the Deep State and “fake news” media, especially rebuking ‘skeptics’ who issue ad hominem attacks to discourage and disparage truth seekers, truth tellers, helpful contributors, and life-savers.

Those who smear whistleblowers as foolish ‘conspiracy theorists,’ to defame and neutralize us, are deadly to public health and safety, as evidenced by the neglect and smearing of my works over the years that accurately predicted our current pandemic challenges.

If I can be of any further assistance to you in these matters, please feel free to contact me.

Sincerely yours,

A handwritten signature in cursive script, appearing to read "Leonard G. Horowitz". The signature is written in dark ink on a light-colored background.

China: Vaccine Law Passed

(Aug. 27, 2019) On June 29, 2019, the National People's Congress Standing Committee of the People's Republic of China (PRC or China) adopted the [PRC Law on Vaccine Administration](#) (Vaccine Law). The official Xinhua news agency [states](#) that the Law provides for the "strictest" vaccine management with tough penalties in order to ensure the country's vaccine safety.

Before the passage of this 100-article Law, provisions governing vaccines [were contained](#) in the PRC Drug Administration Law, PRC Law on the Prevention and Treatment of Infectious Diseases, and a few relevant administrative regulations and rules.

The new Law provides for regulatory requirements for researching, producing, distributing, and using vaccines. Such requirements, according to one legal commentator, are [much more stringent](#) than those for other drugs (art. 2). It also contains a chapter specifying penalties for violating the Vaccine Law, which are also stricter than those for violating other drug laws (ch. 10). According to the Law, if any violation of this Law constitutes a crime, a "heavier punishment" within the range of punishments provided by the Criminal Law on the relevant crimes is to be imposed (art. 79).

The Law mandates the launching of a national vaccine electronic tracking platform that integrates tracking information throughout the whole process of vaccine production, distribution, and use to ensure all vaccine products can be tracked and verified (art. 10).

According to the Law, China is to implement a state immunization program, and residents living within the territory of China are legally obligated to be vaccinated with immunization program vaccines, which are provided by the government free of charge. Local governments and parents or other guardians of children must ensure that children be vaccinated with the immunization program vaccines (art. 6).

The Law establishes a compensation system for abnormal reactions to vaccination. A recipient of an immunization program vaccine who dies or suffers significant disability or organ and tissue damage is to be paid from the vaccination funds of the provincial level government if the damage falls within the scope of abnormal reactions associated with a vaccine or cannot be prevented (art. 56).

The Law will take effect on December 1, 2019 (art. 100).
